
CURRENT AND PENDING (OTHER) SUPPORT INFORMATION

Provide the following information for the Senior/key personnel and other significant contributors.
Follow this format for each person.

*NAME: Welz, Gary

*POSITION TITLE: Retired Affiliate

*ORGANIZATION AND LOCATION: CUNY Graduate Center, New Media Lab, New York, New York, United States

Proposals/Active Projects

***Proposal/Active Project Title:** CopernicusAI Knowledge Engine

***Status of Support:** Pending

Proposal/Award Number: NSF Proposal 295407

***Source of Support:** None

***Primary Place of Performance:** City University of New York, Graduate Center

***Proposal/Active Project Start Date: (MM/YYYY):** 07/2026

***Proposal/Active Project End Date: (MM/YYYY):** 07/2028

***Total Anticipated Proposal/Project Amount:** \$469,200

* **Person Months per budget period Devoted to the Proposal/Active Project:**

Year	Person Months
2026	6
2027	6
2028	6

***Overall Objectives:** Development of the CopernicusAI Knowledge Engine: an AI-powered research assistance system that provides interactive briefings, multi-modal metadata integration, and process visualization. The research will advance human-centered computing through iterative refinement interfaces, unified metadata representation, reliability mechanisms, and comprehensive evaluation studies. The project will create new research on briefing interface design, cross-modal linking algorithms, multi-checker workflows, and process visualization integration.

***Statement of Potential Overlap:** No overlap or conflict exists. The Principal Investigator has no current or pending sources of support that would create overlap or conflict of interest with this proposed NSF research. All prior work on CopernicusAI components has been entirely self-funded and serves as proof-of-concept foundation. The proposed NSF research extends significantly beyond current prototypes through new research on briefing interfaces, metadata schemas, reliability mechanisms, process visualization integration, and evaluation studies.

In-Kind Contributions

***Status of Support:** Pending

***Source of Support:** None

***Receipt (or Anticipated Receipt) Date of In-Kind Contribution: (MM/YYYY):** 07/2026

***Summary of In-Kind Contribution:** None

***U.S. Dollar Value of In-Kind Contribution:** \$0

Person-Month(s) (or Partial Person-Months) Per Year Devoted to the In-Kind Contribution:

Year	Person Months
2026	6

***Overall Objectives:** Development of the CopernicusAI Knowledge Engine: an AI-powered research assistance system that provides interactive briefings, multi-modal metadata integration, and process visualization. The research will advance human-centered computing through iterative refinement interfaces, unified metadata representation, reliability mechanisms, and comprehensive evaluation studies. The project will create new research on briefing interface design, cross-modal linking algorithms, multi-checker workflows, and process visualization integration.

Certification:

I certify that the information provided is current, accurate, and complete. This includes, but is not limited to, information related to current, pending, and other support (both foreign and domestic) as defined in 42 U.S.C. § 6605.

In accordance with Section 10632 of the CHIPS and Science Act of 2022 (42 U.S.C. § 19232), each individual identified as a senior/key person must certify that they are not a party to a malign foreign talent recruitment program.

Research Security Training Requirement for Federal Award Personnel: In accordance with Section 10634 of the CHIPS and Science Act of 2022 (42 U.S.C. § 19234), each individual identified as a senior/key person must certify that they have completed the requisite research security training that meets the requirements specified in Item 2 of Important Notice No. 149 within 12 months prior to proposal submission.
